Differences between 3000B4 series and 3000B3 series

Dear Sir/Madam,

Find below a summary of Series differences for Dap Technologies 3000B4 & 3000B3 series handheld computers.
Here are the models/options combinations :

|	Handheld models	Options		Comments
1	3000B4-1	GPRS	RFID	Ethernet disabled*. Comes with WIFI/BT.
2	3000B4-2	GPRS	RFID	Ethernet enabled. Comes with WIFI/BT.
3	3000B3-1	GPRS		Ethernet disabled*. Comes with WIFI/BT.
4	3000B3-2	GPRS		Ethernet enabled. Comes with WIFI/BT.

*No hardware difference between WIFI/BLUETOOTH models, 3000B3-2 & 3000B4-2 haves Ethernet function enabled by software.

WIFI/BLUETOOTH is a combo board and was previously certified under FCC ID : HDWF10040.
The GPRS module is certified under FCC ID : N7NMC8775.

3000B3 SERIES PHOTO

FCC ID: T5M3000B3
IC: 4609A-3000B3

There are two models under this FCC ID or IC certification number.
Models: 3000B3-1 and 3000B3-2
*No hardware difference between 3000B3-1 & 3000B3-2 models. 3000B3-2 has Ethernet function enabled by software; 3000B3-1 have Ethernet function disabled.

3000B4 SERIES PHOTO

FCC ID: T5M3000B4
IC: 4609A-3000B4
There are two models under this FCC ID or IC certification number.
Models: 3000B4-1, 3000B4-2
*No hardware difference between 3000B4-1 & 3000B4-2 models. 3000B4-2 has Ethernet function enabled by software; 3000B4-1 has Ethernet function disabled.

The only difference between 3000B3 series and 3000B4 series is the RFID module. 3000B3 series has no RDID module, 3000B4 series has RFID module. All other parts are the same.

SAR tests on 3000B4 series were done with RFID module mounted and unmounted. So SAR test reports for 3000B4 are also valid for 3000B3 series.
